AI Engineer skilled in **computer vision** and **natural language processing**, with hands-on experience in **PyTorch**, **TensorFlow**, and **LLMs** like GPT for tasks such as text generation and summarization. Experienced in training, fine-tuning, and deploying models using **Docker**, **AWS**, and **GPU-based environments**. Comfortable building end-to-end AI solutions—from concept to scalable, production-ready deployment.

Education

Teerthanker Mahaveer University

Moradabad, India

Milton Public School

Agra, India

Milton Public School

Agra, India

Aug 2022 – June 2025

Projects

Decentralized AI Model Marketplace

Jan 2025 – Mar 2025

- Engineered a **blockchain-based platform** where developers can upload, trade, and deploy **ML models** securely.
- Built full stack with **Next.js + Node.js + PostgreSQL**, integrated **Dockerized PyTorch models**, and deployed on **AWS Lambda + IPFS**.

Multi-Modal Disaster Response System

Oct 2024 – Dec 2024

- Designed AI system combining **satellite imagery (CNN)** + **social media NLP (Transformers)** to detect disaster zones in real-time.
- Deployed insights to a **React.js + GraphQL** dashboard for relief teams, reducing alert delay by 35%.

AI-Driven Personal Finance Copilot

Aug 2024 – Oct 2024

- Built intelligent assistant using **LangChain + GPT-4 + financial APIs** to provide budgeting, fraud detection, and investment insights.
- Deployed as a **progressive web app (Next.js + MongoDB)** with real-time sync and authentication via **OAuth2**.

Work Experience

UI/UX Developer Intern — Codetech Solution

July 2024 – Aug 2024

Hyderabad

Remote Internship

- Designed responsive web interfaces for client applications using **Figma** and **Adobe XD**, following modern **UX/UI** standards.
- Delivered interactive **wireframes** and scalable **design systems** to accelerate frontend development workflows.
- Collaborated with cross-functional teams to enhance **user experience** through iterative feedback and **usability**.

Certificates

Programming in Python (IIT Bombay)

April 2025

- Completed a hands-on course covering **Python syntax**, **control structures**, **functions**, and **file operations**.
- Practiced writing **modular** and **reusable code** using data structures like **lists**, **dictionaries**, and **sets**.

Programing in C (IIT Bombay)

April 2024

- Studied **procedural programming**, including **loops**, **arrays**, **pointers**, and **memory management** tech.
- Wrote **C programs** focused on **algorithmic problem-solving** and **low-level memory access**.
